

Isaque André Fernandes dos Santos Ribeiro

WEB DEVELOPER · BACKEND SOFTWARE ENGINEER

+55 (17) 98205-2201 isaqueafsantos@gmail.com linkedin.com/in/isaqueafs github.com/isaqu3

PROFESSIONAL SUMMARY

Web developer with 5+ years of hands-on experience, specialized in backend development with **PHP 8+ and Laravel**. Strong track record architecting and evolving complex ecosystems — LMS, ERP, ATS, admin panels and B2B/multi-tenant platforms. Solid experience modernizing legacy systems, integrating AWS services, building video/streaming pipelines and optimizing relational databases (MySQL/PostgreSQL). Early adopter of AI-assisted software engineering (Claude Code, MCP, custom Skills and automations). Advanced English.

TECHNICAL SKILLS

Languages & frameworks	PHP 8.x · Laravel (Sanctum, Queue, Cache) · JavaScript (jQuery) · HTML5 · CSS3 · Bootstrap 5
Databases	MySQL (advanced modeling and optimization) · PostgreSQL
Infrastructure & DevOps	AWS (S3) · Docker · Apache · Linux (administration and configuration)
AI & automation	Claude Code · OpenAI Codex · MCP (Model Context Protocol) · custom Skills and tooling · AI-assisted technical documentation · workflow automation
Architecture & integrations	Multi-tenancy · SSO / external authentication · PWA · REST APIs · Webhooks · video integrations (Vimeo, Gumlet)

PROFESSIONAL EXPERIENCE

Development Analyst / Lead Developer — MoveEdu

2021 — Present

- **Corporate LMS:** owned 95%+ of the codebase and commits over 3 years building a Laravel/PHP LMS / corporate university platform used to train employees and franchisees of a multi-brand education network.
- **Multi-tenant architecture & access control:** designed and implemented a multi-tenant architecture supporting multiple brands/franchises, with hierarchical RBAC (User, Admin, Super Admin) and a B2B approval flow tied to orders and products.
- **AI-assisted development:** introduced generative AI into the software lifecycle — custom Skills, MCP servers and tools — accelerating testing, refactoring and technical documentation with Claude Code and Codex.
- **Media & streaming pipeline:** built the full educational video pipeline (upload, streaming and progress tracking), leading the provider migration (Vimeo → Gumlet) and automated backup to AWS S3.
- **Business-critical modules:** assessments, automated certification (learning tracks and PDF generation) and post-training satisfaction surveys (NPS).
- **Performance & reporting:** management reports with high-volume Excel exports and optimized server-side

DataTables.

- **Integrations & legacy:** led the restructuring of legacy projects and integrated external authentication (SSO) across brands and legacy ecosystems.
- **Data modeling:** designed and evolved the MySQL schema with dozens of complex relational business entities.

Junior Developer / Technical Support – MoveEdu

2020 – 2022

- Built in-house routines and applications to automate and streamline support and internal configuration processes.
- Provided remote support for incident resolution in production applications and remote configuration of Windows and Linux servers.

EDUCATION & CERTIFICATIONS

2020	Technical Degree in Information Technology — Senac
Certification	Mastering MySQL — Udemy / hCode
Ongoing	Continuing specialization in DevOps and web technologies — Alura
